

Damn (Lyrics by Guido Block)

**Happy anniversary
Sweet love of mine
Forget about your cake
Loose your dimension of time
Here's your gift**

**So I polished the chains
They shine like bracelets of stars
Their metallic 'clik'
Is the sound that we love**

**I oiled the machines
I oiled the handcuffs as well
Oiling every part feels like oiling myself
Fixing a hole in these leather straps
Is like fixing a hole somewhere else
Black leather beauty you're so cute and neat
I say damn...
Our love's so sweat**

**Bless you babe you blow me free
Day and night
Position number 93
Oh you'll see the light
You drive me crazy
When you're dressed like a nurse
Let your doctor control
How's the nurses purse
16 candles they will be your defeat
I say damn...
Our love's so sweat
Damn...**

**1, 2, 3 'n' 4 never loved somebody more
5, 6, 7, 8, 9 don't you think our love is crime
10, 11, 12, 13 you'll always be my secret queen
14, 15, 16 years...
You're so young don't waste your tears
Damn...
Our love's so sweat
Damn...
Our love's so sweat
Damn...
Our love's so sweat
Damn...**
