

Love Struck (Lyrics by Guido Block)

intro:

I know it took a real long time
(but) now I know it's the moment
wanna tell you what I'm really feeling
please believe me it's hard to say

verse1:

Things can go different ways sometimes
As you have planned it in your mind
And what you thought was easy
Gets a different weight
And there's no solution to get away

Chorus:

We're gonna survive this awful moment
Take my hand, we keep together
Our love will survive 'cause we can make it
Take my hand and you will see

Verse2:

you know I loved you all this time
I'm thinking about you and that's a sign
well i know what you ask seems so simple
just a piece of mind
but sometimes that piece is hard to find

chorus2:

we're gonna survive tis awful moment
take my hand, we're happy together
let's give it a try 'cause we can make it
take my hand and you will see

verse3:

All that I ask is a bit of time
That's what I need...and a little smile
I'm just a fool without you
Nothing new I say
All I beg is some patience
(that's) The only way
