

Love me baby (Lyrics by Guido Block)

**Love me baby
love me all night long
squeeze me baby
tease me all night long
I'm the one you've always waited for
babe you can't go wrong
so love me baby
love me all night long
'cause it's dark and cold outside
yeah I won't let you go
come on baby let me love you
with my body and my soul**

**Thrill me baby
Thrill me all night long
Thrill me baby
'til the night is gone
I'm gonna teach you all the things
that your mother never taught
So love me baby
Love me all night long
Believe me baby
Yeah I won't do you no harm
Turn back in the bed
You know it's cosy and warm**

**Love me baby
Make my dreams come true
Take me baby
Now it's up to you
I'm the one you've always waited for
Baby it's the truth
So hold me baby
I'm in love with you**
